About the Participating Businesses

① Ishino Seisakusho Co., LTD.

Ishino Seisakusho is Japan's leading manufacturer of sushi conveyor belt systems. In addition, they produce a wide variety of other food processing equipment. Ever since their founding in 1959, their success has been driven by a combination of technical skill and creativity. They take pride in the role their sushi conveyor belts have played in popularizing Japanese cuisine overseas and hope to share the joys of sushi with more and more people around the world.

② RB Controls Co., LTD.

Founded in 1971, RB Controls manufactures electronic control units for gas, oil, and electrical equipment and is one of Japan's leading producers of high-voltage units. In recent years, RB Controls has focused its efforts on creating energy-efficient and environmentally-friendly environments to support safe and easy lifestyles. RB Controls is committed to expanding internationally and has subsidiaries in China and Korea.
